

WILDLIFE TRAVEL

A detailed photograph of a Himalayan monal pheasant (Lophus himalaicus) in its natural habitat. The bird is shown in profile, facing right, with its head turned slightly towards the viewer. It has a vibrant green crest, a blue face, and a neck with iridescent green, blue, and orange feathers. Its body is primarily black with a blue sheen on the wings. The background is a blurred field of dry, yellowish-brown grass and twigs.
